7 December 1982

MEMORANDUM FOR:

[redacted]
Director, Intelligence Community Staff

25X1

FROM:

[redacted]
Acting Director, Office of Assessment and Evaluation

25X1

SUBJECT:

NOIWON

1. Attached is the proposal we discussed last Thursday regarding a NOIWON upgrade.

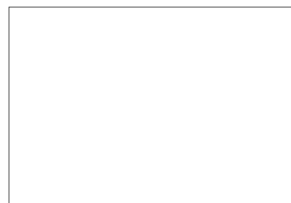

2. [redacted] who attended the Operations Center Conference referenced in the attached, reports that the participants were primarily interested in a capability to orient the NOIWON conference around a common graphic, such as a map or photo. They were less interested in the "Picture Phone" type of video conferencing where participants view one another's faces. Also, their interest in adding other subscribers was prompted by uncertainty over the new mid-eighties collection systems. They see the possibility that processing centers [redacted] may become invaluable sources of time-sensitive information.

25X1

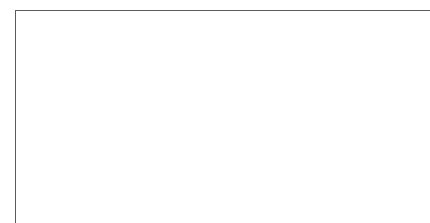

25X1

3. The attached has been coordinated with the NIO/W.
